

# Pots and Pans

## Let's Make Some Noise

Search the kitchen for items such as pots, pans, trays, spoons, cups, cylinders and recyclable materials such as lids, and boxes - anything that makes a sound! Go for an adventure walk and collect an assortment of natural materials to incorporate into your music play.

### Bring Stories to Life with Sound

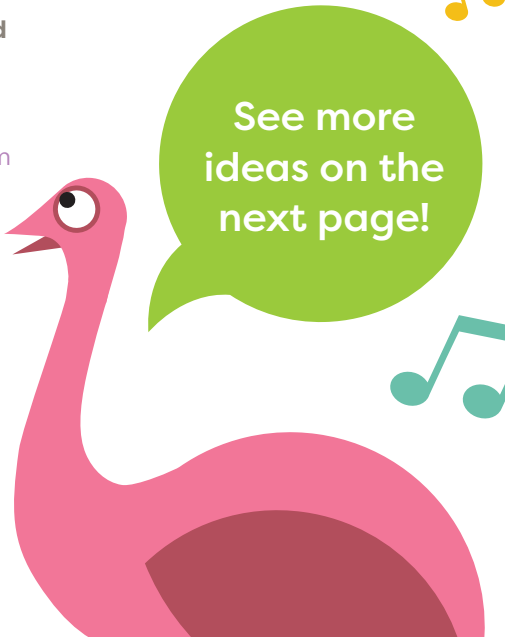

Children can experiment with rhythms, tempos, melodies and an array of sounds, learning how they can be used to bring a story to life!

**Add sound to movements, actions and character scenes such as:**

The Big Bears stomped loudly through the forest: "BOOM, BOOM" on the drum

The bird was singing in the tree above: "Tweet tweet tweet."

I was splashing through the puddles: "Splash splash splash!"

See more ideas on the next page!

# Pots and Pans

## Let's Make Some Noise

Hang an assortment of pots, pans and trays from a tree or your fence to make a wonderful drum kit

### Ideas

Make rain sticks using recycled household items. Check out our [activity sheet here](#)

Remember to supervise children at all times!
