

# How our playgroup works

(or 4 secrets for success)

## Many small efforts add up to an amazing result

Everyone helps out a little, with any job they are happy to do. It makes everyone feel connected and ensures one person doesn't carry the load alone.

## We welcome all families and make them feel at home

Every family needs support and community to raise their child. We ensure new families feel safe, connected and welcome when they join us. It can be as simple as a smile.

## We are respectful and considerate

We model good behaviour to our children and each other. We listen to other's points of view. We pay our fees on time. We tell each other when we can't make it to playgroup or when we are going on holiday.

## We work together to create an enriching play and learning environment for our children

We help set up the room to create a welcoming, safe and interesting play space for the children. We suggest new ideas when they come to us, we work with each other to develop new activities. We use art, nature, music, rhymes and stories for our children to have fun while they learn.
